The Asphalt Binder Handbook is a comprehensive manual that is devoted entirely to information about asphalt binders or bitumen. It is a compilation of the information in many other Asphalt Institute publications along with unpublished information on topics such as the Multiple-Stress Creep Recovery (MSCR) test, testing variability and resolution and the generation of mastercurves.

Now updated, this volume serves as a single resource to supplement Superpave PG asphalt binder system test methods. This new edition contains a chapter on the direct tension test (DTT), an introduction to

the new multi-stress creep-recovery test (MSCR), a troubleshooting section and updated graphics.

Modern highway engineering reflects an integrated view of a road system's entire lifecycle, including any potential environmental impacts, and seeks to develop a sustainable infrastructure through careful planning and active management. This trend is not limited to developed nations, but is recognized across the globe. Edited by renowned authority

The Routledge Handbook of Deradicalisation and Disengagement offers an overview of the historical settings, theoretical debates, national approaches and practical strategies to deradicalisation and disengagement. Radicalisation and violent extremism are major global challenges, and as new and violent extremist groups and environments emerge, there is an increasing need for knowledge about

how individuals physically exit these movements and how to change their mindset. Historically, much of the focus on these topics has been highly securitised and militarised; by contrast, this volume explores the need for more community-based and 'soft' approaches. The handbook includes discussions from both right-wing/left-wing political and religiously inspired deradicalisation processes. The handbook is organised into three parts: 1 definitions, backgrounds and theories; 2 actors; 3 regional case studies. This handbook will be of much interest to students, researchers, scholars and professionals of deradicalisation, counterterrorism, political violence, political extremism, security studies and international relations in general.
