This book illustrates  
how Africa ’ s  
defence and security  
domains have been  
radically altered by  
drastic changes in  
world politics and

local ramifications.

First, the contributions of numerous authors highlight the transnational dimensions of counterterrorism and counterinsurgency in Africa and reveal the roles played by African states and regional organisations in the

global war on terror.  
Second, the volume  
critically evaluates  
the emerging  
regional  
architectures of  
countering terrorism,  
insurgency, and  
organised violence  
on the continent  
through the African  
Union  
Counterterrorism  
Framework (AU-CTF)

Third, the book sheds  
light on the

counterterrorism and  
counterinsurgency

(CT-COIN) structures  
and mechanisms

established by  
specific African states

to contain, degrade,  
and eliminate

terrorism,  
insurgency, and

organised violence on the continent, particularly the successes, constraints, and challenges of the emerging CT-COIN mechanisms. Finally, the volume highlights the entry of non-state actors – such as civil society, volunteer groups, private security

companies, and  
defence contractors  
– into the theatre of  
counterterrorism and  
counterinsurgency in  
Africa through  
volunteerism,

Operations, and civil-  
military cooperation

The events of 11
