Psychology and Neuro-Linguistic programming (NLP) are two of the most powerful forces available to mankind. For too long, these disciplines have been kept secret from the masses. Some of the most devastating insights into the human mind have been hidden away in the pages of psychology journals. Dark secrets offer the promise of power and influence, over ourselves and others. It has been made almost impossible for outsiders to access the power of personal influence - until now. This book can raise your awareness about how to analyze people, how to pay attention to details such as body language, and the main influencing techniques.

BUY THIS BOOK WITH 55% DISCOUNT!! Are you stressed out and tired by the feeling of being manipulated? Are you seeking a way to influence others that will benefit you in various ways? If yes, this is the right book for you! "NLP SECRETS AND PERSUASION" is your ultimate guide to effectively influencing people using NLP and persuasion techniques, hypnosis, brainwashing, body language, and mind control. It also helps you avoid being a victim of these techniques. NLP refers to the ability to sway interactions with other people. It is guided by non-verbal responses and reactions of the other people, which can be used first to create rapport and convince others to do what is necessary. Persuasion is rooted in ancient Greek's model of a prized politician and orator. Nowadays, in the business domain, persuasion refers to a corporate system of influence to change other people, groups, or organizations' attitudes, behavior, or perception. It employs verbal, non-verbal, visual, or multimodal communication to convey, change, or reinforce a piece of existing information or reasoning peculiar to the audience. In politics and governing today, persuasion still retains its role as one of the essential means of influencing the populace's behavior, feelings, and commitment through the power of mass media. More generally speaking, persuasion is a concept of influence that attempts to change a person's attitudes, intentions, motivations, beliefs, or behaviors. This book will help you go more in-depth into detail about NLP and persuasion. It covers: - Neuro-linguistic Programming (NLP) - How NLP works, its importance and effectiveness - NLP Techniques - Hypnosis and Brainwashing - The Swish Pattern - Persuasion Techniques - Dark Persuasion ... And much more! Let's learn more about NLP and persuasion to immediately use or avoid them in your everyday life for your good. BUY THIS BOOK WITH THE SPECIAL DISCOUNT!!!

Do you want to learn how to use manipulation techniques and dark psychology secrets to analyze and influence people easily? If yes, then keep reading... NLP can be divided into three major components, making up its name: neuro, linguistic, and programming. Of course, these are not the only concepts that govern the use and practice of NLP. In addition to neuro, linguistic, and programming, concepts such as subjectivity, consciousness, and learning (also known as modeling) are essential to the art of NLP. Having a good understanding of these concepts is the key to mastering advanced NLP techniques and procedures to be used in everyday life, as they provide a solid foundation to build and develop your NLP skills on. While the basics will be touched on in this section, more detailed techniques will be explained in the following section. Neuro refers to the body's nervous system, in particular, the most important part of the nervous system, the brain. While human beings receive information from the outside world by using the five senses, the brain is responsible for sorting through and organizing all of the information that is received and plays a vital role in how you decide to act based on that information. Everyone's brain has a slightly different method of filtering through information: some are faster, more efficient, and more observant, while other people have to take their time in sorting information, and are not able to maximize the value they receive from it, while still others are somewhere in between the two extremes. Of course, ideally, your brain would have a filtering process that is as quick and effective as possible. By utilizing NLP techniques, you can train your brain to handle the intake of information at a faster and more productive pace, and can better determine how to use that information to gain an edge over other people in the same environment. In NLP, your process for mentally filtering and sorting external information is crucial. After all, neuro is only the first step in the NLP process. Your first impression of the information gained from the filtering process is known as "First Access," and is comprised mainly of feelings, sounds, and images, all embedded within your subconsciousness. By being more attentive to the world around us, we can increase the strength of our First Access, and therefore have a better quality of information to feed our subconsciousness, which plays into how we make conscious decisions. Having a stronger First Access also impacts the ability to communicate with others, both on a conscious and subconscious level; if you have better access to information than another person, then you can better use that information to steer them in the direction that you want them to go. This book gives a comprehensive guide on the following: Hypnosis and NLP Different types of human predators & how to spot them The most effective ways to spot a predator of any kind Mind control techniques Don't say a word-body language Tactics to manipulate others The basics of brainwashing Neuro-linguistic processing: the art of manipulating yourself Traits of the dark and what dark psychology is How to know you are a victim of manipulation Discover your dark side and regain control of yourself ...
