A compact and portable version of the best-selling and most-trusted world literature anthology, The Norton Anthology of World Literature, Shorter Second Edition, is a rich and teachable selection of the world's literature, in generous portions and the best translations available."

A classic, reimagined.

A collection of writings, including prose, fiction, poetry, essays, and non-fiction, from influential Western writers from the seventeenth century to the present.

The most-trusted and best-selling anthology continues to set the bar with a vibrant revision of the Major Authors Edition. Major Authors offers new complete major works, new contemporary writers, and new dynamic and convenient digital resources. Now the Norton is an even better teaching tool and, as ever, an unmatched value for students.

The definitive survey, combining current scholarship with a vibrant narrative. Carefully informed by feedback from dozens of scholars, it remains the book that students and teachers trust to explain what's important, where it fits, and why it matters. Peter Burkholder weaves a compelling story of people, their choices, and the western musical tradition that emerged. From chant to hip-hop, he connects past to present to create a context for tomorrow's musicians.
