"The style manual was developed originally as a printer's stylebook to standardize word and type treatment, and it remains so today. Through successive editions, the manual has come to be widely recognized by writers and editors both within and outside the Federal Government as one of the most useful resources in the editorial process. In the 21st century, writers and editors are using the manual in the preparation of informational content of Government publications that appear in digital formats."--Provided by publisher.

Journalist Walls grew up with parents whose ideals and stubborn nonconformity were their curse and their salvation. Rex and Rose Mary and their four children lived like nomads, moving among Southwest desert towns, camping in the mountains. Rex was a charismatic, brilliant man who, when sober, captured his children's imagination, teaching them how to embrace life fearlessly. Rose Mary painted and wrote and couldn't stand the responsibility of providing for her family. When the money ran out, the Walls retreated to the dismal West Virginia mining town Rex had tried to escape. As the dysfunction escalated, the children had to fend for themselves, supporting one another as they found the resources and will to leave home. Yet Walls describes her parents with deep affection in this tale of unconditional love in a family that, despite its profound flaws, gave her the fiery determination to carve out a successful life. -- From publisher description.

A multigenerational saga focuses on two extraordinary women, including Rose, a tyrannical Communist who terrorizes her neighborhood with her absolute beliefs, and her daughter Miriam, who embraces the counterculture of Greenwich Village.

We all relish a good scandal—the larger the figure (governor, judge) and more shocking the particulars (diapers, cigars)—the better. But why do people feel compelled to act out their tangled psychodramas on the national stage, and why do we so enjoy watching them, hurling our condemnations while savoring every lurid detail? With "pointed daggers of prose" (*The New Yorker*), Laura Kipnis examines contemporary downfall sagas to lay bare the American psyche: what we desire, what we punish, and what we disavow. She delivers virtuoso analyses of four paradigmatic cases: a lovelorn astronaut, an unhinged judge, a venomous whistleblower, and an over-imaginative memoirist. The motifs are classic—revenge, betrayal, ambition, madness—though the pitfalls are ones we all negotiate daily. After all, every one of us is a potential scandal in the making: failed self-knowledge and colossal self-deception—the necessary ingredients—are our collective plight. In *How to Become a Scandal*, bad behavior is the entry point for a brilliant cultural romp as well as an anti-civics lesson. "Shove your rules," says scandal, and no doubt every upright citizen, deep within, cheers the transgression—as long as it's someone else's head on the block.
