Perkin Elmer Victor 3 V

VICTOR3 multilabel readers are flexible and easy- to-use bench top readers covering all of the main non-radioactive reading technologies. Based on your needs, you can select from a basic fluorescence and luminescence model, to the fully-loaded VICTOR3V.

VICTOR3 and VICTOR 3V Multilabel Plate Readers

VICTOR3 is a multilabel, multitask plate reader for all light-emitting and light-absorbing detection technologies including: fluorescence (top and bottom), luminescence, absorbance, UV absorbance, time-resolved fluorometry, and fluorescence polarization. VICTOR3 can operate as a stand-alone instrument or can integrate into a robotic system.

Perkin-Elmer Victor 3V - ULisboa

VICTOR3is a multilabel, multitask plate reader for all light-emitting and light-absorbing detection technologies including: fluorescence (top and bottom), luminescence, absorbance, UV absorbance, time-resolved fluorometry, and fluorescence polarization. You chose the detection technologies you need and upgrade as your needs change.

VICTOR and VICTOR3 V - Louisiana State University

PerkinElmer can help you use your VICTOR3 to its full potential with our assay systems and reagents optimized for use on your VICTOR3 reader. Get the Most Out of Your VICTOR3 !! 2 Products ATPlite 1step Assay Kit, 10 mL 6016736 ATPlite 1step Assay Kit, 100 mL 6016731 ATPlite 1step Assay Kit, 1,000 mL 6016739 Cell-based Assays: Cell Proliferation and Cytotoxicity Assays For those whose ...

All you need for any application - PerkinElmer

Or call (860) 691-2213 The Perkin Elmer Victor3 V 1420-041 Multilabel Plate Reader is a bench top reader designed to be flexible and easy to use. This fully loaded Victor3 V ensures the best sensitivity and working range of technologies.

PerkinElmer Victor3 V 1420-041 Multilabel Plate Reader

Specs VICTOR3V is a multilabel, multitask plate reader for all light-emitting and light-absorbing detection technologies including: fluorescence (top and bottom), luminescence, absorbance, UV absorbance, time-resolved fluorometry, and fluorescence polarization.

PerkinElmer's AutoDELFIa immunoassay system is the leading neonatal screening platform with more than 300 million screenings to its credit. Fully automatic and easy to use, the AutoDELFIa system has become the screening solution of choice for laboratories around the world, and has helped thousands of children start life with a fighting chance.

Victor2i D Instrument - PerkinElmer

VICTOR Nivo was used to measure the activity of the enzyme ADAMTS13 in plasma samples, using the commercial substrate iFFRETS-VWF73i. As variant of the original protocol, PerkinElmer half-area plates were used to save reagent and sample (assay volumes reduced by half as compared to the original protocol).

Victor Nivo Multimode Plate Reader With ... - PerkinElmer

An extended version of the successful Wallac VICTOR multilabel reader, the VICTOR3i allows immediate access to more than 10 counting modes, covering all of the main nonradioactive counting technologies. VICTOR3i accepts all types of microtitration plates with between 1 and 1536 wells, as well as Petri...

iPerspectives in Inflammation Biologyi outlines detailed studies using preclinical murine models in Inflammation. The book is meant for academicians, industry persons, research scholars and students alike. The detailed perspective for a beginner and the exhaustive methodologies and analyses outlined, for the veteran researcher, makes this book a unique link between someone who is thinking of embarking on a study of inflammation and one who is delving deep into this area of specialization. The book deals with asthma and allergy as specific disease areas of inflammation of the lung, aseptic peritonitis as a disease of systemic inflammation and details how each role player in its pathophysiology has a unique niche of activity. Data acquisition, sequentiality and analyses in context demonstrate how each role player is validated systematically to become a target for drug discovery. Methods and models used in the course of my work and their relevance will demonstrate to the researcher how a study can be developed from an idea. Further into a researcher's ongoing work, this book is meant to stimulate new questions and pave ways for better dissection of a phenomenon. The highlights of this book are the detailed tables tabulating sub species of immune cells, their inflammatory recruitment indices, their translation into tissue-to-tissue traffic of the inflammatory stimulus and the delicate interplay of resident structural cells, cells recruited from circulation, their feedback poiesis in bone marrow, their instruction in the lymphoid organs and tissues as well as the non-cellular mediators synthesized from corresponding genetic instruction. The book shall definitely help students and researchers how a disease can be simplified from its complex ramifications and network of implications and put back into perspective and the whole thing falls into place without an intimate understanding of the mechanism and the compelling circumstances that causes a disease, a drug hunter cannot hope to begin her quest. To find the iAchilles' heeli and effectively neutralize the enemy!

This book contributes to increasing the knowledge on the mechanisms of action of natural antioxidants, evidencing their pleiotropic role in the prevention and/or counteraction of degenerative diseases, and promoting their application in the functional food and cosmetic fields.

The Iran-US Claims Tribunal, concerned principally with the claims of US nationals against Iran, is the most important international claims tribunal to have sat in over half a century. Its jurisprudence is bound to make a uniquely important contribution to international law and, in particular, the law relating to aliens, treaty law, and international arbitral procedure. Volume 39 also contains the decisions of the Tribunal's appointing authority in four recent arbitrator challenges and, for the first time, includes the pleadings submitted by the parties and the challenged arbitrator. The series is the only complete and fully indexed report of the decisions of this unique Tribunal. These reports are essential for all practitioners in the field of international claims, academics in private and public international law and comparative lawyers, as well as all Governments and law libraries.

The only complete and fully indexed reports of the Tribunal's decisions between 2000 and 2002.

The only complete and fully indexed reports of the Tribunal's decisions in 2003.

Based on the 38th annual conference of the International Society on Oxygen Transport to Tissue (ISOTT), held in Ascona, Switzerland in July 2010, this volume covers all aspects of oxygen transport from air to the cells, organs and organisms; instrumentation and methods to sense oxygen and clinical evidence.

This book is a printed edition of the Special Issue "Ribosome Inactivating Toxins" that was published in Toxins

This manual deals specifically with laboratory approaches to diagnosing inborn errors of metabolism. The key feature is that each chapter is sufficiently detailed so that any individual can adopt the described method into their own respective laboratory.
