company, Flying Eye Books, the award-winning children's book publisher.

~~?Astro Cat's Solar System on the App Store~~

Professor Astro Cat takes us on a tour of the solar system, highlighting features of each planet. This book has been produced as a junior edition of Professor Astro Cat's Frontiers of Space which was written for an older child audience. The information is deliberately limited to facts contained in three speech bubbles per spread so as not to overwhelm younger readers with information.

~~Professor Astro Cat's Solar System, Corebooks~~

Professor Astro Cat's Solar System is based on the popular children's book 'Professor Astro Cat's Frontiers of Space.'. Once you join on the Astro Cat Space Programme with Professor Astro Cat and his sidekick Astro Mouse, you embark on a fact-filled mission to find out about the solar system. Children start by selecting their cat character and entering their name; their mission is then set.

Part of an award-winning book series for children, this is the ultimate guide to our magnificent solar system and the astronauts who explore it. An entertaining, educational adventure for young readers. Engage the senses through vivid deep-space photography, cutaways and illustrations, quiz questions, and quirky fun facts. It's the perfect book for any kid who can't get enough of outer space! Supporting STEM-based learning, this fact-filled book for kids is perfect for ages 6-9 and contains key curriculum information. Although, age is but a number, don't let our recommendations put you off enjoying this absolute masterpiece of extraordinary astronomy! This kids educational book is so much more than just another book about space. It allows children to discover the mysteries of asteroids hurtling through space, comets lighting up the sky, and the biggest star in our glorious solar system, the Sun. It also explores the steps we've taken to study outer space, like launching the International Space Station. Not to mention the exquisite photographs of nearby planets, stars, and astronomical bodies and stunning details on each of Earth's neighboring planets, including fascinating facts about their moons, mineral makeup, and more. While it's packed with a lot of information, it is presented in a way that can be read in snippets that are appropriate to any level of understanding and you can return to it over and over again to enjoy the majestic beast that is outer space in more detail. Vetted by educational consultants, the DKfindout! series drives kids ages 6-9 to become experts on more than 30 of their favorite STEM- and history-related subjects. Find out Amazing Facts About Our Solar System! What is the weather like on Jupiter? Which planet is the hottest? What are Saturn's remarkable rings made of? How long would it take to get to Pluto? Find out the answers to these questions and more in DKfindout! Solar System. This incredible book is packed with surprising facts and amazing pictures that are simply put, out of this world! From comets to craters, this book captures the beauty of our celestial system as best as one can
