Joe Hill, the horror mastermind behind NOS4A2 and Locke & Key, arrives at DC with the twisted tale of June Branch—trapped with four cunning criminals who have snatched her boyfriend for deranged reasons of their own. Now she must fight for her life with the help of an impossible 8th-century Viking axe that can pass through a man's neck in a single swipe—and leave the severed head still conscious and capable of supernatural speech. Each disembodied head has a malevolent story of its own to tell, and it isn't long before June finds herself in a desperate struggle to hack through their lies and manipulations...racing to save the man she loves before time runs out. But is June Branch a woman fighting for her life—or a deranged axe murderer with a basketful of paranoid fantasies? The truth is even more horrifying than a basketful of heads. Collects *Basketful of Heads* #1-7.

If you're reading this, you may be dreading an upcoming flight with your young child or thinking about taking one, but aren't sure you can handle it. I completely understand, but have no fear. Long haul flights were routine for us as we spent 7 years as expatriates. When my daughter was born in Hong Kong (7500 miles away from our families in California), we obviously had to fly her home for visits. I had anxiety about this for years before I was pregnant and I thought about canceling our first long haul flight trip multiple times. My newborn baby was fussier than most, had major acid reflux, I had to fly alone with her, and our journey was 24 hours door to door. We were just fine, in the end. With preparation, you will be, too. Since then, I've flown long haul and domestically with my daughter more times than I can count. I now enjoy the adventure with her, but getting to this point was not without challenges. I bought tons of useless gear and spent countless hours scouring the Internet for information. The purpose of this ebook is to share details both large and small to help you get from departure to destination without hiccups. I share how I plan my flights from scheduling to seat assignments. Does your baby need a bassinets? There are a few things you need to know that isn't information usually found on airline websites. I include tips to get you, your child and all of your gear through security and to the airplane. Speaking of gear, specific products have been very helpful to us. I'll tell you why and where to buy some of it. The most pressing issue parents seem to have is how to keep kids entertained and fuss free on the plane. Specific things worked for us and I developed a strategy for quieting meltdowns. It can also be tough to get kids on long haul flights to sleep and keep them (and, therefore, you) from getting severe jet lag. We received jet lag advice from medical professionals that does work. My daughter is usually over her jet lag by the second day. What you bring in your carry-on is key. To avoid stress, it's important to organize and pack it well. I'll tell you everything I bring onboard and keep within arms reach on the plane. There is nothing worse than having something you need in a bag in the overhead compartment, when the seat belt sign is on. Remember, if you request bulkhead seats you will not be able to store a bag at your feet. Other topics include tips for diapering on the plane, in flight meals, flying first or business class, and more. You'll also be able to receive quick answers to questions via our ongoing discussion on Twitter via the #flyingwithkids hashtag. There is helpful information in this ebook, regardless of how long your flight is.

The spine-tingling, bone-chilling novel of supernatural suspense from the #1 New York Times bestselling author of *The Fireman* and *Horns*—now an AMC original series starring Zachary Quinto, Ebon Moss-Bachrach, and Ashleigh Cummings. "A masterwork of horror."—*Time* Victoria McQueen has an uncanny knack for finding things: a misplaced bracelet, a missing photograph, answers to unanswerable questions. When she rides her bicycle over the rickety old covered bridge in the woods near her house, she always emerges in the places she needs to be. Charles Talent Manx has a gift of his own. He likes to take children for rides in his 1938 Rolls-Royce Wraith with the vanity plate NOS4A2. In the Wraith, he and his innocent guests can slip out of the everyday world and onto hidden roads that lead to an astonishing playground of amusements he calls Christmasland. The journey across the highway of Charlie's twisted imagination transforms his precious passengers, leaving them as terrifying and unstoppable as their benefactor. Then comes the day when Vic goes looking for trouble...and finds her way to Charlie. That was a lifetime ago. Now, the only kid ever to escape Charlie's evil is all grown up and desperate to forget. But Charlie Manx hasn't stopped thinking about Victoria McQueen. On the road again, he won't slow down until he's taken his revenge. He's after something very special—something Vic can never replace. As a life-and-death battle of wills builds, Vic McQueen prepares to destroy Charlie once and for all—or die trying.
