Philippine Daily Inquirer / 12:36 AM October 13, 2015. If Teodoro Agoncillo was the Moses of the class-conflict theory of the Philippine Revolution, the historian Renato Constantino was its Joshua—he led their followers into the promised land. How can local experiences and the social transformation generated by modernity help to enrich our understanding of the international? What might a version of the much-discussed "non-Western International Relations (IR)" look like? What continuities and discontinuities from the Philippine experience in particular can be useful for understanding other post-colonial polities? The Philippines makes a fascinating case study of a medium-sized, developing, post-colonial, multi-ethnic and multi-cultural state in Southeast Asia. Cruz, Adiong and their contributors map horizons of non-Western approaches in Philippine experiences of IR, rooted in the Global South, and in local customs and practice. Examining both theory and praxis, they explore issues as diverse as pre-colonial history, diplomacy, religion, agrarian reform and the Philippines' relationship with key regions in the Global South. The book will appeal to researchers interested in Southeast Asian Studies and alternative perspectives on IR.

U.S. intervention in the Philippines began with the little-known 1899 Philippine-American War. Using the war as its departure point in analyzing U.S.—Philippine relations, Vestiges of War retrieves this willfully forgotten event and places it where it properly belongs—as the catalyst that led to increasing U.S. interventionism and expansionism in the Asia Pacific region. This seminal, multidisciplinary anthology examines the official American nationalist story of "benevolent assimilation" and fraternal tutelage in its half century of colonial occupation of the Philippines. Integrating critical and visual art essays, archival and contemporary photographs, dramatic plays, and poetry to address the complex Philippine and U.S. perspectives and experiences, the essayists compellingly recount the consequences of American colonialism in the Philippines. Vestiges of War will force readers to reshape their views on what has been a deliberately obscure but significant phase in the histories of both countries, one which continues to haunt the present. Woodson's classic work of criticism explores how the education received by blacks has failed to give them an appreciation of themselves as a race and their contributions to history. Woodson puts forward a program that calls for the educated to learn about their past and serve the black community. (Education/Teaching)

A Third University is Possible unravels the intimate relationship between the more than 200 US land grant institutions, American settler colonialism, and contemporary university expansion. Author la paperson cracks open uncanny connections between Indian boarding schools, Black education, and missionary schools in Kenya; and between the Department of Homeland Security and the University of California. Central to la paperson's discussion is the "scyborg," a decolonizing agent of technological subversion. Drawing parallels to Third Cinema and Black filmmaking assemblages, A Third University is Possible ultimately presents new ways of using language to develop a framework for hotwiring university "machines" to the practical work of decolonization. The history of the continuing struggle of the Philippines people for true independence and social justice.

In the '60s and '70s, America's music scene was marked by raucous excess, reflected in the tragic overdoses of young superstars such as Jimi Hendrix and Janis Joplin. At the same time, the uplifting harmonies and sunny lyrics that propelled Karen Carpenter and her brother, Richard, to international fame belied a different sort of tragedy—the underconsumption that led to Karen's death at age thirty-two from the effects of an eating disorder. In Why Karen Carpenter Matters, Karen Tongson (whose Filipino musician parents named her after the pop icon) interweaves the story of the singer's rise to fame with her own trans-Pacific journey between Manila—where imitations of American pop styles flourished—and Karen Carpenter's home ground of Southern California. Tongson reveals why the Carpenters' chart-topping, seemingly whitewashed musical fantasies of "normal love" can now have profound significance for her—as well as for other people of color, LGBT+ communities, and anyone outside the mainstream culture usually associated with Karen Carpenter's legacy. This hybrid of memoir and biography excavates the destructive perfectionism at the root of the Carpenters' sound, while finding the beauty in the singer's flawed, all too brief life.
