This Manual is written for legal professionals involved in abuse, neglect, dependency, and related termination of parental rights proceedings in North Carolina. It provides easily accessible information about the laws, procedures, and concepts that apply to these proceedings. Topics are organized into fourteen chapters, addressing the different stages of these proceedings from a report of suspected abuse, neglect, or dependency through the achievement of a permanent plan for the child, as well as an overview of North Carolina's child welfare system, jurisdictional issues, evidence, appeals, confidentiality, and applicable federal laws. Each chapter combines applicable statutes, relevant case summaries, additional resources, and practical explanations. Nine checklists address the various types of hearings that are involved in these proceedings. Production of this Manual was made possible with funding provided by the U.S. Department of Health and Human Services - Administration for Children and Families, and the Court Improvement Program of the North Carolina Administrative Office of the Courts. To view this Manual online, free of charge, please visit www.sog.unc.edu.

It is now possible for concerned parents to treat their child's attention deficit/hyperactivity disorder (ADHD) without medication. This book shows them how. Written

by a supervising psychologist who specializes in child behavioral issues, *Parenting Your Child with ADHD* presents a groundbreaking program for parents seeking to reduce their child's inattention, hyperactivity, and impulsivity and strengthen his or her capacity for self-reliance and cooperation. This unique program promotes positive ways of interrelating and shows parents the five main ways they may have unwittingly reinforced ADHD symptoms in the past. Far from encouraging parents to strictly manage ADHD children, this approach promotes independence in kids so that less discipline and surveillance is necessary. Specifically, this book helps parents promote cooperation by phrasing their requests in specific ways, reduce pressure on their child, and acknowledge the child's preference as a way to make cooperation a more attractive choice to him or her. Parents learn to resolve problems related to messiness, inappropriate silliness and intrusiveness, chores and helping family members, coordinating schedules, sneaking and stealing, noise and yelling, and overreacting. The second part of the book moves on to issues that take place outside the home, such as shopping excursions, family outings, and travel. Finally, parents learn ways to increase their child's independence and cooperation with schoolwork and compliance in the classroom environment. The child learns the value of being knowledgeable without the motivation of

punishment or gift rewards.

This innovative counseling guide will benefit the addiction counselor and help the addicted patient locate and understand the exact nature of his or her addiction as it relates to the mind. A credentialed alcoholism and substance abuse counselor, author Leon Dickerson shows that by motivating the addicted person to participate in his or her treatment and commit to regular twelve-step program involvement, he or she will greatly enhance the odds of recovery. Dr. Dickerson also believes that spirituality plays a major role in finding and maintaining sobriety. Numerous twelve-step programs, including Alcoholics Anonymous, use the concept of a higher power in their treatment. Freudian Concepts of Id, Ego and Superego Applied to Chemical and Other Addictions: Introducing Twelve-Step Programs as the Superego Includes a psycho educational workbook that provides topics and exercises for his Specialized Training and Educational Program System (S.T.E.P.S). This program incorporates the use of educational material in the form of pamphlets, videos, and workbooks developed by leading practitioners in the field. Perfect for patients and counselors, Freudian Concepts of Id, Ego and Superego Applied to Chemical and Other Addictions sets the standard for chemical dependency treatment.

How can schools and their communities

effectively prepare for and respond to emergencies? Or even a serious disruption? Mary Margaret Kerr, a nationally recognized expert in school crisis response and a leading urban educator, synthesizes and assembles the best practices of law enforcement, threat assessment, psychology, and communications in a single, streamlined volume. This practical guide prepares school personnel, including counselors and administrators, with the requisite skills at all crisis stages—from preparation and prevention to intervention and recovery. Dozens of actual cases illustrate key concepts and procedures, while allowing readers to assess their preparedness. Helpful forms and checklists help readers set priorities and ensure accountability. Interactive features encourage readers to reflect critically, consider solutions, and apply their skills.
