The fire is fear. If we run away from fear, we die. However, if we simply turn around, face it, and run through it, we survive. And discover that on the other side is simply scorched earth, fresh for rebirth. And the fire is no longer moving towards us but away from us, no longer a threat to our survival. Wow.

unexpected sympathies from some Nazis themselves. Zosia's story is as much a chronicle of the Holocaust as it is everywoman's struggle against human folly and depravity. "RUNNING THROUGH FIRE is a book filled with unspeakable horrors--but it is told without a shred of self-pity. Zosia Goldberg never complains, never bemoans her lot. She battles and endures, and in this raw, unvarnished tale of human suffering, she has given us a manual of hope"--Paul Auster.

After her helicopter is shot down while on a rescue mission, Leah Mackenzie hides in a labyrinth of Afghanistan caves with Navy SEAL Kell Ballard, where they find comfort in each other's arms despite the enemy who waits outside.

Chief inspector Mushtaq Hussain is posted to a police station in Patparganj - a small hill station nestling in the Western Ghats. While idly leafing through the old case files at the station, he comes across one that had caused a sensation of sorts when he used to be a student-boarder at the Palace School, Patparganj. Though the file is marked 'Closed' many questions remain unanswered Susan, whose memories stir feelings in Mushtaq's heart, had been found, late at night, lying unconscious beside Altaf, their classmate, in a clearing in the bush around the Palace school estate. What was the duo doing there at that time? Susan had been badly mauled and angry scratch marks had appeared all over the skin exposed due to torn clothing. Who had attacked Susan and why? Altaf had his head

bludgeoned with blood flowing through a gaping wound near his neck. Who had struck Altaf? Gonu, the mentally challenged school mascot, had stood at the crime scene with a bloodied hockey stick in his hand. Why? How did he get there? Miss Stokes, Gonu's mother and the first one to witness the tableau, had come across Gonu struggling with a person, who, when confronted by Miss Stokes, had fled away into the thicket before she could have a closer look at his face. Who was the fourth person? Mushtaq decides to investigate. He sets the stage for the dramatis personae of that night to come together once again hoping to reignite the passions that could throw up some answers.

In the streets of Addis Ababa in 1977, shop-front posters illustrate Uncle Sam being strangled by an Ethiopian revolutionary, parliamentary leaders are executed, student protesters are gunned down, and Christian mission converts are targeted as imperialistic sympathizers. Into this world arrives sixteen-year-old Tim Bascom, whose missionary parents have brought their family from a small town in Kansas straight into Colonel Mengistu's Marxist "Red Terror." Here they plan to work alongside a tiny remnant of western missionaries who trust that God will somehow keep them safe.

Running to the Fire focuses on the turbulent year the Bascom family experienced upon traveling into revolutionary Ethiopia. The teenage Bascom finds a paradoxical exhilaration in living so close to constant danger. At boarding school in Addis Ababa, where dorm parents demand morning devotions and forbid dancing, Bascom bonds with other youth due to a shared sense of threat. He falls in love for the first time, but the young couple is soon separated by the politics that affect all their lives. Across the country, missionaries are being held under house arrest while communist cadres seize their hospitals and schools. A friend's father is imprisoned as a suspected CIA agent; another is killed by raiding Somalis. Throughout, the teenaged Bascom struggles with his faith and his role

within the conflict as a white American Christian missionary's child. Reflecting back as an adult, he explores the historical, cultural, and religious contexts that led to this conflict, even though in doing so he is forced to ask himself questions that are easier left alone. Why, he wonders, did he find such strange fulfillment in being young and idealistic in the middle of what was essentially a kind of holy war?

been intrigued by their remarkable success. Toby Tanser has devoted much of his professional career living and training among Kenyan runners in order to better understand the unique status of East African athletes. In *More Fire: How to Run the Kenyan Way*, the author builds upon the success of his acclaimed *Train Hard, Win Easy*, the first book to provide insights into the Kenyan "magic" that so many runners and coaches had sought. Instead of special foods or secret techniques, Tanser found that Kenyan runners simply trained incredibly hard, much harder than anyone had realized. By adapting their training regime--which includes three workouts a day--and following their example, runners, whether novices or champions, are able to improve both their performance and enjoyment in running. For those

training for a marathon or any other distance race, this book is both practical and inspirational. Divided into four parts, the book begins with a description of running in Kenya, the landscape, the physical conditions, and the people; the second part concentrates on details of Kenyan training camps, training methods, and their typical training diet; the third profiles individual runners and coaches from the past and present, with each explaining their approach to running so that readers can gain further insight into their methods. The book ends with a discussion on how the reader can adapt Kenyan training practices for their own running requirements. More Fire: How to Run the Kenyan Way is essential reading for runners of all levels and experience.
