A fascinating study of five twentieth-century Latin American novels that focus on one particular search for El Dorado: the infamous 1559 expedition, headed by Pedro Ursua and the first legendary colonial rebel against the crown, Lope de Aguirre. Author Bart Lewis approaches these five works as both representations of Latin American literature during the mid to late twentieth-century and as re-examinations of the notorious figure of Lope de Aguirre.

Every story has a beginning. Discover how Marinette and Adrien,

Acts and Monuments by John Foxe, popularly abridged as Foxe's Book of Martyrs, is a celebrated work of church history and martyrology, first published in English in 1563 by John Day. Published early in the reign of Queen Elizabeth I and only five years after the death of the Roman Catholic Queen Mary I, Foxe's Acts and Monuments was an affirmation of the Protestant Reformation in England during a period of religious conflict between Catholics and Protestants. Foxe's account of church history

asserted a historical justification that was intended to establish the Church of England as a continuation of the true Christian church rather than as a modern innovation, and it contributed significantly to a nationalistic repudiation of the Roman Catholic Church. The sequence of the work, initially in five books, covered first early Christian martyrs, a brief history of the medieval church, including the Inquisitions, and a history of the Wycliffite or Lollard movement. It then dealt with the reigns of Henry VIII and Edward VI, during which the dispute with Rome had led to the separation of the English Church from papal authority and the issuance of the Book of Common Prayer. The final book treated the reign of Queen Mary and the Marian Persecutions. (courtesy of wikipedia.com)
