"Spotlight on CAE" is a comprehensive course carefully written to the new CAE exam specifications introduced in December 2008. It prepares adult and younger learners to excel in the revised exam. All four skills are developed within each of the sixteen units, and are supported by an overall skills-based examination syllabus.

Spotlight on Advanced is a comprehensive course that has been revised to be in line with the new Cambridge English exam specifications for January 2015. It prepares adults and younger learners to excel in the revised exam. An exciting new feature of this revised edition is the Ideas Generator. Test takers need to generate ideas to pass the Speaking and Writing papers of the exam. The Ideas Generator uses National Geographic videos to stimulate students' interest in common exam topics, help them build ideas about these topics and gather the language they need to effectively write or speak about them. After each video lesson students will have a bank of ideas, functional language and vocabulary tied to eight topics that commonly appear in the exam. One of the most difficult parts of the exam for students is the Speaking Test. The Speaking Test videos and worksheets will prepare students by getting them to engage with simulations of all four parts of the Speaking test.

Spotlight on Advanced is a comprehensive course that has been revised to be in line with the new Cambridge English exam specifications for January 2015. It prepares adults and younger learners to excel in the revised exam.

Spotlight on CAE is a comprehensive course carefully written to the new CAE exam specifications introduced in December 2008. It prepares adult and younger learners to excel in the revised exam. All four skills are developed within each of the sixteen units, and are supported by an overall skills-based examination syllabus. Spotlight on CAE includes:

Spotlight on FCE prepares students to be fully aware of how the exam works and how to be ready to pass it. It consolidates and builds on essential areas of grammar and vocabulary. It also develops the speaking, reading, writing and listening skills required to pass. Spotlight on FCE also works well with the new online preparation course My FCE, which offers over 40 hours of additional test preparation.

This pack consists of the Student's Book with answers with CD-ROM and Class Audio CDs. The Student's Book fully prepares students to tackle each part of every exam paper. Unique grammar and vocabulary exercises train students to avoid common mistakes. The interactive CD-ROM provides comprehensive extra practice of the language and topics covered in the book and supports mixed ability focusing on students' own particular areas of difficulty. The Class Audio CDs contain the recordings for the listening exercises in the Student's Book. A full practice test is available online for teachers to access.

Fourth edition of the best-selling Cambridge English: Advanced (CAE) course, updated to prepare for the 2015 revised exam. The Student's Book without answers contains fresh, updated texts and artwork that provide solid language development, lively class discussion and training in exam skills. The 25 topic-based units include examples from the Cambridge English Corpus to highlight common learner errors and ensuring that students are learning the most up-to-date and useful language required at this level. The interactive CD-ROM provides comprehensive extra practice of the language and topics covered in the book. Class Audio CDs containing the recordings for the listening exercises are available separately.

Spotlight on Modern Transformer Design introduces a novel approach to transformer design using artificial intelligence (AI) techniques in combination with finite element method (FEM). Today, AI is widely used for modeling nonlinear and large-scale systems, especially when explicit mathematical models are difficult to obtain or completely lacking. Moreover, AI is computationally efficient in solving hard optimization problems. Many numerical examples throughout the book illustrate the application of the techniques discussed to a variety of real-life transformer design problems, including:

- problems relating to the prediction of no-load losses;
- winding material selection;
- transformer design optimisation;
- and transformer selection.

Spotlight on Modern Transformer Design is a valuable learning tool for advanced undergraduate and graduate students, as well as researchers and power engineering professionals working in electric utilities and industries, public authorities, and design offices.
