This handy, simple guide walks the novice -- or budget-minded -- gardener through the entire process of cultivating marijuana. Unlike most such books that feature costly high-tech equipment, this one emphasizes household fluorescent bulbs and other inexpensive, easily available supplies. Marijuana Buds for Less is organized around a boldly photographed day-to-day planner, with each page a day in the life of the garden. Growers have a visual reference of their plant's progress with instructions on watering, feeding, lighting, and caretaking.

Beyond Buds is a handbook to the future of marijuana. Prohibition 's end has led to a technological revolution that 's generated powerful medicines and products containing almost zero carcinogens and little smoke. Marijuana icon Ed Rosenthal and leading cannabis reporter David Downs guide readers through the best new consumer products, and demonstrate how to make and use the safest, cleanest extracts. Beyond Buds details how award-winning artisans make hash and concentrates, and includes modern techniques utilizing dry ice and CO2. The book is a primer on making kief, water hash, tinctures, topicals, edibles, and other extracts from cannabis leaves, trim, and bud bits, and it goes on to explore and simplify the more exotic and trendy marijuana-infused products, such as butane hash oil (BHO), shatter, wax, and budder. More complex than lighting a joint, these innovative products call for new accessories — special pipes, dabbing tools, and vaporizers — all of which are reviewed and pictured in the book. Beyond Buds expands on Rosenthal 's previous
