as the Hewitt Lectures
of Columbia

University at Cooper
Union in New York

City during the
months of February
and March, 1907. The
purpose of these
lectures was to
describe in concise
outline the Doctrine of
Evolution, its basis in
the facts of natural
history, and its wide

Download File

PDF The

and universal scope.

They fall naturally into two groups. Those of the first part deal with matters of definition, with the essential characteristics of living things, and, at greater length, with the evidences of organic evolution. The lectures of the second group take up the various aspects of

Download File

PDF The

Doctrine of Evolution as a special instance of the general organic process. In this latter part of the series, the subject of physical evolution is first considered, and this is followed by an analysis of human mental evolution; the chapter on social evolution extends the fundamental

Download File

PDF The

principles to a field which is not usually considered by biologists, and its purpose is to demonstrate the efficiency of the genetic method in this department as in all others; finally, the principles are extended to what is called the higher human life, the realm,
