The Eurasian Economic Union - researchportal.port.ac.uk the form of the Eurasian Economic Union (EAEU). This important regional organisation was established in 2015 and represents an alternative to the EU, but in a de-politicised institutional framework, offering current and prospective members a path to

A prominent authority on China ’ s Belt and Road Initiative reveals the global risks lurking within Beijing ’ s project of the century China ’ s Belt and Road Initiative is the world ’ s most ambitious and misunderstood geoeconomic vision. To carry out President Xi Jinping ’ s flagship foreign-policy effort, China promises to spend over one trillion dollars for new ports, railways, fiber-optic cables, power plants, and other connections. The plan touches more than one hundred and thirty countries and has expanded into the Arctic, cyberspace, and even

outer space. Beijing says that it is promoting global development, but Washington warns that it is charting a path to global dominance. Taking readers on a journey to China ' s projects in Asia, Europe, and Africa, Jonathan E. Hillman reveals how this grand vision is unfolding. As China pushes beyond its borders and deep into dangerous territory, it is repeating the mistakes of the great powers that came before it, Hillman argues. If China succeeds, it will remake the world and place itself at the center of everything. But Xi may be overreaching: all roads do not yet lead to Beijing.

In this well-researched and detailed book, the editors provide an extensive and critical analysis of post-Soviet regional integration. After almost two decades of unfulfilled integration promises, a new _ improved and functioning _ regime emerged in th

The integration of the Eurasian Economic Union has been under constant development as officials try to successfully implement new economic policies within its various regions. Introducing a new policy such as this creates the formation of new markets, the improvement of cooperation initiatives, as well as a new legislative base and supplementations. These continual alterations require updated analysis and research for political leaders to follow regarding provincial incorporation methods. Regional Integration and Future Cooperation Initiatives in the Eurasian Economic Union is an essential reference source that discusses the conceptual and empirical frameworks of the current phase of Eurasian integration as well as its economic impact. Featuring research on topics such as multilateral cooperation, free trade, and international views, this book is ideally designed for politicians, economists, strategists, public relations specialists, research scholars, policymakers, students, and academicians seeking coverage on regional integration issues in modern Eurasia.

This book addresses the complex origins of the Ukrainian crisis. It places the crisis in a longer-term perspective and shows how the domestic political regime interpreted, balanced and eventually chose between the competing integration offers of Russia and the EU. It also explores the key implications for Ukraine's relations with the EU and Russia.

Drawing on international, transnational, and comparative legal scholarship, *The Law and Policy of New Eurasian Regionalization: Economic Integration, Trade, and Investment in the Post-Soviet and Greater Eurasian Space*, additionally offers the insights of a plethora of leading international scholars in economics, institutional theory, area studies, international relations, global political economy, political science, and sociology. The contributors come from four corners of the globe, including Asia, Europe, and North America.

This proceedings book reflects the alternative way of development of the modern global economic system. It sets evolutionary development in opposition to revolutionary leap. The search for the best way to develop the world economy in the present and future is carried out. The social environment and the human-centered development of the modern global economic system have been explored. The features of training of personnel for the modern global economic system through the development of vocational education and training have been studied. Sustainable development, energy and food security have been identified as significant milestones of the progress of the modern global economic system. Innovations and digital technologies have been suggested as the drivers of growth and development of the modern global economic system. Consideration has been given to the institutional framework and legal groundwork for the development of the modern global economic system. The fundamentals have been identified and recommendations have been put forward for improving governmental regulation, financial and capital investment support for integration

in the modern global economic system. The book includes the best works based on the results of the 22nd International Research-to-Practice Conference “ Current Issues of the Global Economy ” which was held on June 19, 2020, at the Peoples ’ Friendship University of Russia (PFUR) (Moscow, Russia) and the 14th National Research-to-Practice Conference “ A New Paradigm of Social and Economic Development in the Age of Intelligent Machines, ” which was held on May 14–16, 2020 (Nizhny Novgorod, Russia), VIII International Research-to-Practice Conference “ Multipolar Globalization and Russia, ” which was held on May 21–23, 2020 (Rostov-on-Don, Russia), III All-Russian Research-to-Practice Conference “ Power, Business, and Education: The Ascent to Man, ” which was held on May 21–22, 2020 (Krasnoyarsk, Russia), International Research-to-Practice Conference “ Current Issues and Ways of Industrial Development: Engineering and Technologies, ” which was held from September 28, 2020, till October 1, 2020 (Komsomolsk-on-Amur), and the 15th National Research-to-Practice Conference “ New Models of Behavior of Market Players in the Conditions of Digital Economy, ” which was held on October 29–30, 2020, at Ufa State Oil Technical University, Institute of Economics and Service (Ufa, Russia). The target audience of the book consists of scholars studying the features of development of the global economic system at the present stage and the prospects for its future progress.

What purpose does the EU serve? Why and how was it set up? How does it work? What has it already achieved for its citizens, and what new challenges does it face today? In a globalised world, can the EU compete successfully with other major economies while maintaining its social standards? How can immigration be managed? What will Europe ’ s role be on the world stage in the years ahead? Where will the EU ’ s boundaries be drawn? And what future is there for the euro? These are just some of the questions explored by EU expert Pascal Fontaine in this 2017 edition of his popular booklet *Europe in 12 lessons*. Pascal Fontaine is a former assistant to Jean Monnet and former professor at the Institut d ’ Études Politiques, Paris.

From East to West, the economies of Europe and Central Asia (ECA) are not taking full advantage of the internet to foster economic growth and job creation. The residents of Central Asia and the South Caucasus pay some of the highest prices in the world for internet connections that are slow and unreliable. In contrast, Europe enjoys some of the world ’ s fastest and affordable internet services. However, its firms and individuals are not fully exploiting the internet to achieve higher productivity growth as well as more and better jobs. *Reaping Digital Dividends* investigates the barriers that are holding back the broader adoption of the internet in ECA. The report identifies the main bottlenecks and provides policy recommendations tailored to economies at varying levels of digital development. It concludes that policies to increase internet access are necessary but not sufficient. Policies to foster competition, international trade and skills supply, as well as adapting regulations to the changing business environment and labor markets, will also be necessary. In other words, *Reaping Digital Dividends* not only requires better connectivity, but also complementary factors that allow governments, firms and individuals to make the most out of it.

Highlights of IFPRI ’ s current cutting-edge, policy-relevant research in Central, East, South, and Southeast Asia are featured in this brochure. IFPRI works with partners throughout Asia to contribute to effective policies, programs, and investments that help ensure all people have access to safe, sufficient, nutritious, and sustainably grown food across the continent.

There is a considerable mismatch between theories on the influence of the EU outside its borders and concrete knowledge on whether and to what extent the suggested impact is of

any practical relevance. The aim of this book, therefore, is to help close that gap in the knowledge concerning the role and function of the Court of Justice of the European (CJEU) outside its own borders in selected countries. Scholars from Armenia, Azerbaijan, Georgia, Israel, Jordan, Russia, Switzerland, Tunisia, Turkey, Ukraine and the Eurasian Economic Union have researched and explored how their respective countries have been influenced by the CJEU. This title looks at 'why' along with 'how' these decisions have been utilized. All of this culminates in an effort to be able to rank the degree to which the CJEU is influencing non-EU jurisdictions according to a common scale. Looking across the selected countries, this title analyses the research provided by the scholars. This includes a brief description of the relationship and agreements between the EU and the country, a concise history of the country's judiciary, a full account of the extent to which the country's courts have cited CJEU judgements, and an analysis of that extent and the impact they have had. Other factors are explored as well, such as countries who want to join the EU might aim for more legal harmonization between them and the EU. These metrics are used to compare across the neighbourhood countries and draw conclusions about CJEU influence and impact outside of the EU. This comprehensive edited collection is an in-depth look at the actual impact of the CJEU in neighbourhood countries, providing crucial information in an overlooked field of EU law.
