The Home and the World (1916) is a novel by Bengali author Rabindranath Tagore. Written after Tagore received the 1913 Nobel Prize in Literature, the novel dramatizes the Swadeshi movement for Indian independence from British rule. Through the lens of one family, Tagore illuminates the conflict between Western culture and Indian nationalism while exploring the complex relationships of men and women in modern India. Concerned for his wife, who spends most of her days inside, Nikhil, an educated aristocrat, brings Bimala to a political rally. There, they hear the magnanimous revolutionary Sandip speak out against British imperialism and call for Indian independence. Although Nikhil remains passive, if not indifferent, regarding British rule, Bimala, who comes from a poor family, reaches a political awakening of her own. When Nikhil and Bimala invite Sandip to stay as a guest at their home, Bimala moves further away from her traditional role as a wife and begins to develop romantic feelings for the radical figure. Aware of his growing influence, Sandip places himself between Nikhil and his wife while secretly attempting to convince Bimala to use her husband’s wealth to support the Swadeshi cause. The Home and the World is a masterful novel that explores the personal behind the political, inserting the lives of individuals into history’s great wheel without losing sight of humanity. With a beautifully designed cover and professionally typeset manuscript, this edition of Rabindranath Tagore’s The Home and the World is a classic of Indian literature reimagined for modern readers.

In this brilliantly poetic 1916 novel, an idealistic Bengali husband encourages his tradition-minded wife to venture out into the world, leading to her political awakening and attraction to a charismatic leader.

The Home and the World illustrates the battle between the ideas of Western culture and revolution against the Western culture in India. These two ideas are portrayed in two of the main characters, Nikhil, who is rational and opposes violence, and Sandip, who will let nothing stand in his way from reaching his goals. These two opposing ideals are very important in understanding the history of the Bengal region and its contemporary problems. The novel is set in early 20th century India. The story line coincides with the National Independence Movement taking place in the country at the time, which was sparked by the Indian National Congress.

China’s sixteenth and seventeenth centuries saw an unprecedented explosion in the production and circulation of woodblock-printed books. What can surviving traces of that era’s print culture reveal about the makers and consumers of these books? Home and the World addresses this question by carefully examining a wide range of late Ming books, considering them not merely as texts, but as material objects and economic commodities designed, produced, and marketed to stand out in the distinctive book marketplace of the time, and promising high enjoyment and usefulness to readers. Although many of the mass-market commercial imprints studied here might have struck scholars from the eighteenth century on as too trivial, lowbrow, or slipshod to merit serious study, they prove to be an invaluable resource, providing insight into their readers’ orientations toward the increasingly complex global stage of early modernity and toward traditional Chinese conceptions of textual, political, and moral authority. On a more intimate scale, they tell us about readers’ ideals of a fashionable and pleasurable private life. Through studying these works, we come closer to recapturing the trend-conscious, sophisticated, and often subversive ways readers at this important moment in China’s history imagined their world and their place within it. 2015 Joseph Levenson Book Prize, Pre-1900 Category, China and Inner Asia Council of the Association for Asian Studies

A terrifying sound disturbs the peace of Hansuli Turn, a forest village in Bengal, and the community splits as to its meaning. Does it herald the apocalyptic departure of the gods or is there a more rational explanation? The Kahars, inhabitants of Hansuli Turn, belong to an untouchable "criminal tribe" soon to be epically transformed by the effects of World War II and India's independence movement. Their headman, Bonwari, upholds the ethics of an older time, but his fragile philosophy proves no match for the overpowering machines of war. As Bonwari and the village elders come to believe the gods have abandoned them, younger villagers led by the rebel Karali look for other meanings and a different way of life. As the two factions fight, codes of authority, religion, sex, and society begin to break down, and amid deadly conflict and natural disaster, Karali seizes his chance to change his people's future. Sympathetic to the desires of both older and younger generations, Tarashankar Bandyopadhyay depicts a difficult transition in which a marginal caste fragments and mutates under the pressure of local and global forces. The novel's handling of the language of this rural society sets it apart from other works of its time, while the village's struggles anticipate the dilemmas of rural development, ecological and economic exploitation, and dalit militancy that would occupy the center of India's post-Independence politics. Negotiating the colonial deprivations of the 1939–45 war and the oppressions of an agrarian caste system, the Kahars both fear and desire the consequences of a revolutionized society and the loss of their culture within it. Lyrically rendered by one of India's great novelists, this story of one people's plight dramatizes the anxieties of a nation and the resistance of some to further marginalization.

Big new changes in the British electoral system - devolved assemblies for Scotland, Wales and Northern Ireland, proportional representation for the European parliament and the direct election of London's Mayor - have all been introduced since the last general election in 1997, and others may be on the way. They are described and discussed by Dick Leonard, a leading political journalist and former MP, and Roger Mortimore, a senior opinion pollster, in this completely revised and updated edition of the standard work on British elections.

This volume brings together an interdisciplinary group of scholars from the United States, the Middle East, and North Africa, to discuss and critically analyze the intersection of gender and human rights laws as applied to individuals of Arab descent. It seeks to raise consciousness at the intersection of gender, identity, and human rights as it relates to Arabs at home and throughout the diaspora. The context of revolution and the destabilizing impact of armed conflicts in the region are used to critique and examine the utility of human rights law to address contemporary human rights issues through extralegal strategies. To this end, the volume seeks to inform, educate, persuade, and facilitate newer or less-heard perspectives related to gender and masculinities theories. It provides readers with new ways of understanding gender and human rights and proposes forward-looking solutions to implementing human rights norms. The goal of this book is to use the context of Arabs at home and throughout the diaspora to critique and examine the utility of human rights norms and laws to diminish human suffering with the goal of transforming the structural, social, and cultural conditions that impede access to human rights. This book will be of interest to a diverse audience of scholars, students, public policy researchers, lawyers and the educated public interested in the fields of human rights law, international studies, gender politics, migration and diaspora, and Middle East and North African politics.

Rabindranath Tagore's Ghare Baire was first serialised in 1914 and published as a novel in 1916. The events in the novel deal with the period 1905-7, a period of tremendous political unrest in Bengal. The public upheaval takes place alongside another revolution that of women's emancipation and a new gender equation. Ghare Bhaire (The Home and the World) is the first fictional exploration of the tangled web of crucial issues related to the two spheres, the home and the world, in early twentieth century Bengal. Towards Freedom is a collection of critical essays on the issues raised by Tagore's novel in a contemporary world where differences of religion, region, class, caste, gender, etc., constantly demand to be addressed. It focuses upon the crafting of the novel out of complex historical contexts of caste, class and gender politics. By examining the play of ideologies in this novel, the anthology aims to help students recognise the importance of locating imaginative literature within its histories. Given that most of these structured hierarchies of oppression function powerfully in our lives even today, Towards Freedom stresses the continuing relevance of engaging with the issues raised by a novel which looks at the private and the political as intertwined.
