UNDERSTANDING THE NEW NHS

The new NHS is to be a market, in which patients choose particular hospitals or clinics and in which doctors and hospitals compete for business, both with each other and with for-profit healthcare corporations." Until 2000, the government claimed that it would not privatise clinical services but The NHS Plan of 2000 proved this to be a lie.

Dr Alison Talbot-Smith, an experienced doctor and researcher, and Professor Allyson M. Pollock, one of the UK's leading authorities on the NHS, give a lucid and incisive account of the new NHS – which has emerged from a far-reaching programme of market-oriented changes. Providing an authoritative and accessible overview of the new NHS, the book describes: the structures and functions of the new organizations in each of the devolved countries the funding of NHS services, education, training and research and resource allocation the regulation of the new NHS systems and workforce the relationships between the NHS, the Department of Health, local authorities and regulatory bodies, and between the NHS and the private sector the future implications of current policies. This is an indispensable resource for those working in healthcare today as clinicians, academics, researchers and managers. It will also be essential reading for academics, students, and researchers in related fields, as well as the general public.

To maximise the effectiveness of their work, NHS employees need a clear understanding of the structures and systems of the organisation in which they work. However, this information can be widely spread, hard to access and difficult to gain a working overview of, and the pace of changes and initiatives can seem almost dizzying. This book draws together a clear picture of the modern NHS, from funding and governance to reports, inquiries and overarching legislation. The book is clear and easy to understand and crucially includes full references to provide a one-stop point of access to the most detailed and up-to-date information available. This book is essential reading for workers in the NHS at all levels, including managers, administrators and clinical professionals. It is vital reading for managers and staff at commercial companies working with the NHS. It will also be of interest to campaigners, patient interest groups, researchers and journalists with an interest in the NHS. Specialty registrars and consultants can also find the information from the book, and much

The new NHS is a very different organisation to the one set up 60 years ago. Two decades of reforms have introduced a market element, unprecedented transparency, patient choice, new incentives, devolved accountabilities and a host of new regulatory bodies. All these changes have made governance a crucial and contested issue in health care. *Governing the New NHS* makes sense of the new systems and will enable anyone interested in healthcare governance to navigate their way confidently through the maze. It describes, assesses and critiques the new governance arrangements. It examines how they are working in practice and how practitioners are responding. The book: explains current governance arrangements and explores related issues and tensions discusses the roles and interrelationships of boards and effective
