As featured in the bestselling book The Secret, here is the landmark guide to wealth creation republished with the classic essay “How to Get What You Want.”Wallace D. He then turned his life effort into this simple, slender book – a volume that he vowed could replace libraries of philosophy, spirituality, and self-help for the purpose of attaining one definite goal: a life of prosperity.Wattles describes a definite science of wealth attraction, built on the foundation of one commanding idea: “There is a thinking stuff from which all things are made...A thought, in this substance, produces the thing that is imaged by the thought.”In his seventeen short, straight-to-the-point chapters, Wattles shows how to use this idea, how to overcome barriers to its application, and how work with very direct methods that awaken it in your life. He further explains how creation and not competition is the hidden key to wealth attraction, and how your power to get rich uplifts everyone around you.The Science of Getting Rich concludes with Wattle’s rare essay “How to Get Want You Want” – a brilliant refresher of his laws of wealth creation.

The First Principle in The Science of Getting Rich Increasing Life How Riches Come to You Gratitude Thinking in the Certain Way How to Use the Will Further Use of the Will Acting in the Certain Way Efficient Action Getting into the Right Business The Impression of Increase The Advancing Man Some Cautions, and Concluding Observations Summary of the Science of Getting Rich Inspiring quotes from *The Science of Getting Rich*: "The very best thing you can do for the whole world is to make the most of yourself." "You must get rid of the thought of competition. You are to create, not to compete for what is already created." "Get rich; that is the best way you can help the poor." "Do all the work you can do, every day, and do each piece of work in a perfectly successful manner; put the power of success, and the purpose to get rich, into everything that you do" "Success in life is becoming what you want to be." "A man's way of doing things is the direct result of the way he thinks about things." "To get rich, you need only to use your will power upon yourself." Excerpt from chapter 1 - The Right to be Rich Whatever may be said in praise of poverty, the fact remains that it is not possible to live a really complete or successful life unless one is rich. No man can rise to his greatest possible height in talent or soul development unless he has plenty of money; for to unfold the soul and to develop talent he must have many things to use, and he cannot have these things unless he has money to buy them with. A man develops in mind, soul, and body by making use of things, and society is so organized that man must have money in order to become the possessor of things; therefore, the basis of all advancement for man must be the science of getting rich. The object of all life is development; and everything that lives has an inalienable right to all the development it is capable of attaining. Man's right to life means his right to have the free and unrestricted use of all the things which may be necessary to his fullest mental, spiritual, and physical unfoldment; or, in other words, his right to be rich. In this book, I shall not speak of riches in a figurative way; to be really rich does not mean to be satisfied or contented with a little. No man ought to be satisfied with a little if he is capable of using and enjoying more.
