While the global economy languishes, one

place just keeps growing despite failing banks, uncertain markets, and high unemployment: Silicon Valley. In the last two years, more than 100 incubators have popped up there, and the number of angel investors has skyrocketed. Today, 40 percent of all venture capital investments in the United States come from Silicon Valley

In *Secrets of Silicon Valley*, entrepreneur and media commentator Deborah Perry Piscione takes us inside this vibrant ecosystem where meritocracy rules the day. She explores Silicon Valley's exceptionally risk-tolerant culture, and why it thrives despite the many laws that make

Drawing on interviews with investors, entrepreneurs, and community leaders, as well as a host of case studies from Google to Paypal, Piscione argues that Silicon Valley's unique culture is the best hope for the future of American prosperity and the global business

Generations of immigrants have relied on small family businesses in their pursuit of the American dream. This entrepreneurial

# Where To Download The Silicon Valley Of Dreams

tradition remains highly visible among Korean immigrants in New York City, who have carved out a thriving business niche for themselves operating many of the city's small grocery stores and produce markets. But this success has come at a price, leading to dramatic, highly publicized conflicts between Koreans and other ethnic groups.

# Where To Download The Silicon Valley Of Dreams

In Ethnic Solidarity for Economic Survival, Pyong Gap Min takes Korean produce retailers as a case study to explore how involvement in ethnic

businesses—especially where it collides with the economic interests of other ethnic groups—powerfully shapes the social, cultural, and economic unity of immigrant

groups. Korean produce merchants, caught between white distributors, black customers, Hispanic employees, and assertive labor unions, provide a unique opportunity to study the formation of group solidarity in the face of inter-group conflicts. Ethnic Solidarity for Economic Survival draws on census and survey data, interviews with

community leaders and merchants, and a review of ethnic newspaper articles to trace the growth and evolution of Korean collective action in response to challenges produce merchants received from both white suppliers and black customers. When Korean produce merchants first attempted to gain a foothold in the city's economy,

they encountered pervasive discrimination from white wholesale suppliers at Hunts Point Market in the Bronx. In response, Korean merchants formed the Korean Produce Association (KPA), a business organization that gradually evolved into a powerful engine for promoting Korean interests. The KPA used boycotts, pickets,

and group purchasing to effect enduring improvements in supplier-merchant relations. Pyong Gap Min returns to the racially charged events surrounding black boycotts of Korean stores in the 1990s, which were fueled by frustration among African Americans at a perceived economic invasion of their neighborhoods. The

Korean community responded with rallies, political negotiations, and publicity campaigns of their own. The disappearance of such disputes in recent years has been accompanied by a corresponding reduction in Korean collective action, suggesting that ethnic unity is not inevitable but rather emerges, often as a form of self-defense,

under certain contentious conditions. Solidarity, Min argues, is situational. This important new book charts a novel course in immigrant research by demonstrating how business conflicts can give rise to demonstrations of group solidarity. Ethnic Solidarity for Economic Survival is at once a sophisticated empirical analysis and a

In this extraordinary book, Kevin Starr – widely acknowledged as the premier historian of California, the scope of whose scholarship the Atlantic Monthly has called
