The Silver Hand is quite a bit darker but no less exciting than the Paradise War, which is still my favorite of the trilogy. This book gives a different perspective on the coming and goings of the characters and surroundings in Albion, and I appreciated that Lawhead switched it up because it suited this story perfectly.

Jane is certain that Silver is more than just a machine built to please. And she will give up everything to prove it. So she escapes into the city's violent, decaying slums to embrace a love bordering on madness. Or is it something more? Has Jane glimpsed in Silver something no one else has dared to see—not even the robot or his creators? A love so perfect it must be destroyed, for no human could ever compete?
