If you love action, international adventure, geeky scientific knowledge, new age philosophy and a bit of romance, you've come to the right place. Billionaire Dick Colfax clandestinely uses the power of the United States government to corner the world coal market. He is aided by former fundamentalist preacher and sitting Governor of the State of Montana, Guy Charlevoix. Guy, along with former rock star and current US Senator from the State of Texas, Magda Helmer, have even bigger ambitions. They plan on being the next President and Vice President of the United States of America. And when they are, the full force of that office, including the US Military, will be used to accomplish Dick Colfax's goal of becoming the world's first trillionaire ... as they become the world's first billionaire leaders of the free world. Former Army Ranger, brilliant mathematician and part-time FBI Contractor, Dr. Clay St. Clair is drawn into another international thriller along with his beautiful, smart and athletic girlfriend Dr. Nancy Picararo. As they uncover the plot to use the United States Government to corner the world's coal reserves, they also plunge deeply into their own spiritual nature and discover who they really are.

No longer does the threat of civil war hang over the Island of the Sixteen Gods. Edrun and his companions can relax for a while before returning to their homes. But the High Priest and Priestess complain that brigands are causing trouble in one of the more remote corners of the territory of the Lute. Edrun and his companions offer to eradicate this menace, but instead Edrun ends up stumbling in the dark with a crack on the head, lost in a storm. When he awakes, he is still in the land of Lute.. or is he? Where are his friends? Where is the Inn of the Stranger Maiden? And who are these men--the sinister Brotherhood of the Sword? Edrun is forced to wonder if he is, in fact, dead, journeying on the path of the Sixth Stage, and, if so, can he ever get back again?

This volume is the English translation of Tamil scholar Thirumoolar, which comes as a boon for those who might be interested in studying the classic, but were unable to do so, because of the language barrier. This book is aimed at spreading the message of the great scholar to the whole world.

#1 NEW YORK TIMES BESTSELLER From the National Book Award-winning author of Stamped from the Beginning comes a “groundbreaking” (Time) approach to understanding and uprooting racism and inequality in our society—and in ourselves. “The most courageous book to date on the problem of race in the Western mind.”—The New York Times **NAMED ONE OF THE BEST BOOKS OF THE YEAR** BY The New York Times Book Review Time NPR The Washington Post Shelf Awareness Library Journal Publishers Weekly Kirkus Reviews Antiracism is a transformative concept that reorients and reenergizes the conversation about racism—and, even more fundamentally, points us toward liberating new ways of thinking about ourselves and each other. At its core, racism is a powerful system that creates false hierarchies of human value, its warped logic extends beyond race, from the way we regard people of different ethnicities or skin colors to the way we treat people of different sexes, gender identities, and body types. Racism intersects with class and culture and geography and even changes the way we see and value ourselves. In How to Be an Antiracist, Kendi takes readers through a widening circle of antiracist ideas—from the most basic concepts to visionary possibilities—that will help readers see all forms of racism clearly, understand their poisonous consequences, and work to oppose them in our systems and in ourselves. Kendi weaves an electrifying combination of ethics, history, law, and science with his own personal story of awakening to antiracism. This is an essential work for anyone who wants to go beyond the awareness of racism to the next step: contributing to the formation of a just and equitable society. Praise for How to Be an Antiracist “Ibram X. Kendi’s new book, How to Be an Antiracist, couldn’t come at a better time. . . . Kendi has gifted us with a book that is not only an essential instruction manual but also a memoir of the author’s own path from anti-black racism to anti-white racism and, finally, to antiracism. . . . How to Be an Antiracist gives us a clear and compelling way to approach, as Kendi puts it in his introduction, ‘the basic struggle we’re all in, the struggle to be fully human and to see that others are fully human.’ ”—NPR “Kendi dissects why in a society where so few people consider themselves to be racist the divisions and inequalities of racism remain so prevalent. How to Be an Antiracist punctures the myths of a post-racial America, examining what racism really is—and what we should do about it.”—Time

Titus Burckhardt was Swiss and an eminent member of the traditionalist school. He is perhaps best known to the English-speaking public as the author of the following books: Sacred Art in East and West; Siena, City of the Virgin; Moorish Culture in Spain; and Alchemy: Science of the Cosmos, Science of the Soul. A generation ago, he won much acclaim for producing and publishing the first successful, full-scale facsimiles of the Book of Kells and other ancient manuscripts. In more recent years, he acted as a specialist advisor to UNESCO, with particular reference to the preservation of the unique architectural heritage of Fez, which was then in danger. The present volume is a complete collection of Burckhardt’s essays, originally published in a variety of German and French journals. They range from modern science in its various forms, through Christianity and Islam, to symbolism and mythology. It is a rich collection. Burckhardt blends an accessible style with a penetrating insight. He interprets the metaphysical, cosmological, and symbolic dimensions of these sacred traditions from the perspective of timeless, spiritual wisdom.

Tirumantiram is the seminal text of Saiva-Siddhanta which has produced a galaxy of saints and has powerfully influenced the day-to-day life of millions in South Indiageneration after generation. Its author Tirumular was according to legend a yogi who took compassion on a herd of cattle that had lost their shepherd and entering the body of the shepherd by his yogic power continued to look after the flock. So when we find in this great classic such splendid gems as ""Anbe Sivam- God is Love — we realize that the great yogi preached only what he lived. His fervent message that the ultimate Reality is One and all of us belong to the same family has special relevance to us moderns who have lost our moorings of faith and are wandering between two worlds one dead the other powerless to be born. Apart from the literary meritsTirumantram blazes a number of spiritual trails any of which the aspirant can follow with the full confidence that the Goal Supreme is within the reach.
