Having performed the first tracheotomy operation to be carried out in Russia on Count Kutaisof, one of the Tsar Paul I's favourites, Wylie was made the Tsar's personal doctor. When the Tsar was assassinated in March 1801, Wylie made his first steps into infamy when he signed the death certificate, mysteriously giving apoplexy, in place of strangulation, as the cause.

Alexei Nikolaevich of the House of Romanov, was the last Tsesarevich and heir apparent to the throne of the Russian Empire. He was the youngest child and only son of Emperor Nicholas II and Empress Alexandra Feodorovna. He was born with haemophilia, which his parents tried treating with the methods of faith healer Grigori Rasputin. After the February Revolution of 1917, the Romanovs were sent into internal exile in Tobolsk, Siberia. After the October Revolution, the family was initially to be tr

The One Doctor was the twenty-seventh story in Big Finish's monthly range. It was written by Gareth Roberts and Clayton Hickman and featured Colin Baker as the Sixth Doctor and Bonnie Langford as Melanie Bush. This audio was released in December 2001 and was considered Big Finish's "Christmas release". It has a notably comic slant to the story. It is the first of two early Christmas releases ...

Born in Kincardine in 1767, James Wylie became one of the most celebrated doctors in Europe and the centre of two of the most fascinating and enduring conspiracy theories in Russian history. Having performed the first tracheotomy operation to be carried out in Russia on Count Kutaisof, one of the Tsar Paul I's favourites, Wylie was made the Tsar's personal doctor. When the Tsar was assassinated in March 1801, Wylie made his first steps into infamy when he signed the death certificate, mysteriously giving apoplexy, in place of strangulation, as the cause. Wylie went on to serve the Tsar's son, Alexander I, devotedly for twenty-four years; he was with him at Tilsit, when he concluded a treaty with Napoleon and was as a field surgeon at the battles of Austerlitz, Jenna and at Borodino where he reputedly carried out 200 operations on the field. Tolstoy is thought to have made him the doctor who features in "War and Peace". Following Napoleon's defeat, Wylie accompanied Alexander on his triumphant entry into Paris and subsequently went with him to England, where the Prince Regent knighted him at the Tsar's special request. Following the Treaty of Vienna, Alexander returned to Russia before travelling to the Crimea - where he contracted Crimean fever. In spite of Wylie's protestations, the Tsar refused to take any form of medication and died soon afterwards. Once again Wylie signed the death certificate, but rumour soon spread through the Empire that the Tsar, who had become intensely religious, had escaped to live in Siberia where, some time later, he emerged as a visionary monk. In "The Tsars' Doctor", Mary McGrigor unravels the many mysteries surrounding Wylie's life and his involvement with the Romanov dynasty, using contemporary evidence and Wylie's own diaries to examine the details of his great achievements and his participation in several of the most momentous events in 19th century Russian history.

“Michael Farquhar doesn't write about history the way, say, Doris Kearns Goodwin does. He writes about history the way Doris Kearns Goodwin's smart-ass, reprobate kid brother might. I, for one, prefer it.”—Gene Weingarten, two-time Pulitzer Prize winner and Washington Post columnist Scandal! Intrigue! Cossacks! Here the world's most engaging royal historian chronicles the world's most fascinating imperial dynasty: the Romanovs, whose three-hundred-year reign was remarkable for its shocking violence, spectacular excess, and unimaginable venality. In this incredibly entertaining history, Michael Farquhar collects the best, most captivating true tales of Romanov iniquity. We meet Catherine the Great, with her endless parade of virile young lovers (none of them of the equine variety); her unhinged son, Paul I, who ordered the bones of one of his mother's paramours dug out of its grave and tossed into a gorge; and Grigori Rasputin, the “Mad Monk,” whose mesmeric domination of the last of the Romanov tsars helped lead to the monarchy's undoing. From Peter the Great's penchant for personally beheading his recalcitrant subjects (he kept the severed head of one of his mistresses pickled in alcohol) to Nicholas and Alexandra's brutal demise at the hands of the Bolsheviks, Secret Lives of the Tsars captures all the splendor and infamy that was Imperial Russia. Praise for Secret Lives of the Tsars “An accessible, exciting narrative . . . Highly recommended for generalists interested in Russian history and those who enjoy the seamier side of past lives.”—Library Journal (starred review) “An excellent condensed version of Russian history . . . a fine tale of history and scandal . . . sure to please general readers and monarchy buffs alike.”—Publishers Weekly “Tales from the nasty lives of global royalty . . . an easy-reading, lightweight history lesson.”—Kirkus Reviews “Readers of this book may get a sense of why Russians are so tolerant of tyrants like Stalin and Putin. Given their history, it probably seems normal.”—The Washington Post

Russian playwright and historian Radzinsky mines sources never before available to create a fascinating portrait of the monarch, and a minute-by-minute account of his terrifying last days.

The story of an idealistic Russian woman doctor in pre- and postrevolutionary Siberia.

An elucidation of the thirty-year mystery surrounding the death of Tsar Nicholas II and family employs the Tsar's diaries and firsthand accounts of the slayings to offer a minute-by-minute account of the Tsar's final hours. 35,000 first printing. $35,000 ad/promo. Tour.

The Baltic Story recounts the shared history of the countries around the Baltic, from the events of a thousand years ago to the present day.

In the Russia of the tsars, people who criticized or questioned the autocratic prerogatives of the sovereign were brutally suppressed and sometimes actively persecuted. So imbedded was this official hostility to anyone hoping to change or even influence government policy, that even the most high-minded reformers came to understand that the only way they could succeed was to overthrow the regime. The author describes the activities of the most important dissidents and agitators from the reign of Ivan the Terrible to Nicholas II and the Communist Revolution in 1917. Many of these fascinating individuals were serious activists endeavoring to improve society; others were opportunistic scoundrels and adventurers. The author explores the causes that provoked them and the consequences they faced, and explains how time and time again the tsars were goaded into mistakes and over-reaction.

An autobiography of Chaim/"Hayyim" Aronson (1825-1893), covering the years (1825-1888). He was born in Lithuania. He married three times. By 1887, four of his five sons had immigrated to New York. His autobiography ceased in 1888. He immigrated from St. Petersburg, Russia some time soon after that, because he died in New York.
