The Oprah Radio-featured career coach and best-selling author of *This Time I Dance!* shares the story of how she left a successful but ultimately toxic career to pursue a life of fulfillment, sharing ideas for recognizing an inspired path, overcoming doubts and staying connected to personal desires. 10,000 first printing.

The only guide written exclusively for this specialized market, this title provides the most up-to-date marketing resource information available to beginning and advanced writers, freelancers, editors, publishers, publicists, and all others interested in, or involved with, writing.

Rather than descriptions of cases or short three paragraph samples, this book provides readers with full cases drawn from a variety of disciplines that illustrate different case study techniques (descriptive, explanatory, cross-case and methodological). Throughout the text, the author provides thoughtful insights and guidelines on the cases and the different approaches to doing case study research.

A 100-page, perfect-bound notebook, with neatly-lined interior pages. This is just one of many personalised notebooks from Silly Notebooks. If you want a notebook with a different name or animal on it, or if you have a photo you would like on the cover, or any other design for that matter, then please contact the team at Silly Notebooks. Unfortunately, I cannot place links on here to the Silly Notebooks website, where you can also have a look at some of the other notebooks available on Amazon, so you will need to do an Internet search for Silly Notebooks. Once you have found the site (which comes top on most popular search engines), please feel free to contact us with whatever ideas you have for your own personalised notebook and we will try to help. We do not charge for design and publishing, you only pay the price of the notebook on Amazon. We look forward to hearing from you.

Symposium S, "Nanostructured Metal Oxides for Advanced Applications," was held April 1-5 at the 2013 MRS Spring Meeting in San Francisco, California. Metal oxides represent an appealing and assorted class of materials, whose properties cover the entire range from metals to semiconductors to insulators and almost all aspects of material science, chemistry and physics in a very broad application area. In the past few years, progress has been made on the synthesis, structural, physical, and chemical characterization of self-assembled and hierarchically-assembled metal oxide nanostructures that exhibit size-dependent properties. In these proceedings, attention is paid to the synthesis, structural and functional characterization of self-assembled nanostructures and architectures of all metal oxides with application potentials, with particular consideration given to the capability to tailor and control material properties via surface and structural modifications.

"Adelaide Mannheim and her slave Rachel share a shameful secret. Adelaide's father, a Jewish planter in Cass County, Georgia, is Rachel's father, too. Adelaide marries neighboring planter Henry Kaltenbach, a Jew deeply troubled by slavery, and watches with a wary eye as her husband treats all of his slaves--including Rachel---with kindness. As the country's conflict over slavery looms ever larger, Henry and Rachel fall in love, and as the United States is rent by the Civil War, the lives of mistress and slave are torn apart. When the war brings destruction and Emancipation, can these two women, made kin by slavery, free themselves of the past to truly become sisters?"--
