Her name is Sarah. She's blonde, blue-eyed, and Jewish in 1939 Germany. And her act of resistance is about to change the world. After her mother is shot at a checkpoint, fifteen-year-old Sarah meets a mysterious man with an ambiguous accent, a suspiciously bare apartment, and a lockbox full of weapons. He's part of the secret resistance against the Third Reich, and he needs Sarah to hide in plain sight at a school for the daughters of top Nazi brass, posing as one of them. If she can befriend the daughter of a key scientist and get invited to her house, she might be able to steal the blueprints to a bomb that could destroy the cities of Western Europe. Nothing could prepare Sarah for her cutthroat schoolmates, and soon she finds herself in a battle for survival unlike any she'd ever imagined. But anyone who underestimates this innocent-seeming girl does so at their peril. She may look sweet, but she's the Nazis' worst nightmare.

Have you ever wondered why some men pay for sex? In Not A Neanderthal But Never A Fluffy: Thirty Years Of Paying For Sex, Nik the founder of UKPunting, described his lifetime of paying for sex. My Only Romance is effectively a prequel to Not A Neanderthal. In his latest book the author explores with sly humour and brutal honesty his youthful attempts to form regular relationships in the years before he turned to exclusively paying for sex. Live, laugh and love with him as he takes you through his salad days when hopes of finding romance were high and thoughts of paying for love low. Empathise as he lifts the lid on the tempestuous, passionate and unforgettable affair that proved to be his only romance. Some reviews for Not A Neanderthal But Never A Fluffy This book is an honest account of one man's adventures paying for sex over a 30 year period. There is humour and sadness along the way and the author does well to portray the lives and personalities of his regular ladies. Takes you through the highs and lows of a veteran punter over a period of 30 years. You empathise with the author and fully share the sometimes hilarious but often tragic accounts. A very good read. Very interesting and a real eye opener. I found the writing style easy and down to earth. The author's honesty about himself was refreshing, and at times quite moving. It's also a brilliant documentary of how much the paid sex scene, and society generally, has changed in just the past couple of decades. There is no media spin here just the frank recount of Nik who lays bare the facts of punting and paid sex and is free from any hysteria which normally accompanies an exposé on prostitution. Overall a good read that seems to have been written in a honest forthright way.
