What do your
students know or
think they know
about what causes
night and day,
whether the Moon
orbits the Earth,

Online Library

Uncovering

and why the Sun keeps glowing? Find out with this book on astronomy, the latest in NSTA's popular Uncovering Student Ideas in Science series. The 45 astronomy probes provide situations that will pique your students interest while helping you

Online Library

Uncovering

evaluate their

understanding (or
misunderstanding)

of how the universe

operates. The book

is organised into

four broad sections:

the Earth and

gravity; the Earth,

Sun, and Moon

system; the solar

system and gravity

in space; and stars,

galaxies, and the

Online Library

Uncovering

universe. As the authors note, it is not always easy to help students untangle mistaken ideas. Using this powerful set of tools to identify students' preconceptions is an excellent first step to helping your students achieve scientific

heredity; and
human biology."

Assessment probes
enable teachers to
find out what
students really

Online Library

Uncovering

think about key ideas in physical science. Before using the probes, teachers need to study the Teacher Notes, which provide background information on the purpose of the probes, related concepts, explanations for the teacher of the ideas

Online Library

Uncovering

being taught, related ideas in the national science standards, research on typical student misconceptions, and suggestions for instruction and assessment. After using the probes and analyzing students' ideas on force and motion, the teacher returns

Online Library

Uncovering

to the Teacher

Notes for ways to
adjust his or her
instruction. Using

the student-learning

data gained through
the probes to

inform teaching and

learning is what

makes the probes

formative.

Uncovering Student

Ideas in Science,

Online Library

Uncovering

Volume 4, offers 25

more formative

assessment probes

to help reveal

students'

preconceptions of

fundamental

concepts in science.

This is a must-have

Page 58/59

Online Library

Uncovering

book if you're going

to tackle the

challenging

concepts of force

and motion in your

classroom. --
