The Kama Sutra, is an ancient Indian Hindu text written by Vatsyayana. It is widely considered to be the standard work on human sexual behavior in Sanskrit literature. A portion of the work consists of practical advice on sexual intercourse. It is largely in prose, with many inserted anustubh poetry verses. "Kama" which is one of the four goals of Hindu life, means desire including sexual desire the latter being the subject of the textbook, and "sutra" literally means a thread or line that holds things together, and more metaphorically refers to an aphorism (or line, rule, formula), or a collection of such aphorisms in the form of a manual.

HEART OF RIVERDALE, Part 3! Reggie Mantle has nowhere to turn now that the whole town holds him responsible for Betty ' s fate. Meanwhile, Betty learns just how true and noble one of her friends is!

Georges Seurat (1859–1891) created just six major figure paintings during his lifetime, one of which, the alluring Circus Sideshow (Parade de cirque), has remained the most challenging to interpret since it first intrigued viewers at the 1888 Salon des Indépendants in Paris. Unlike Seurat ' s earlier sunlit scenes, Circus Sideshow presents a nighttime tableau depicting a parade—a street show enticing passersby to purchase tickets. With its geometrically precise composition, muted colors, and elements of abstraction, the painting stands apart as a masterpiece of Neo-Impressionism and heralds Seurat ' s subsequent depictions of popular entertainments. This book, the first comprehensive study of Circus Sideshow, situates the painting in the context of nineteenth-century Paris and of the many social changes Franco was undergoing. Renowned art historian Richard Thomson illuminates the roles of caricature, naturalist and avant-garde painting, and circus advertising; examines Seurat ' s use of contemporary aesthetic theory; and discusses how artists ranging from Rouault to Picasso mined the sideshow theme into the twentieth century. Illustrated with Seurat ' s related drawings, works by other artists, and period posters and broadsides, Seurat ' s Circus Sideshow delves into the history of traveling circuses and seasonal fairs in France, exploring the ongoing appeal of this traditional form of popular entertainment through the fin de siècle. Two additional essays describe the painting ' s enthusiastic reception in New York upon its 1929 debut and present the results of a fresh technical examination of the canvas, making this volume the definitive resource on one of Seurat ' s most captivating works.

A Newbery Medal Winner Richard Peck's Newbery Medal-winning sequel to A Long Way from Chicago Mary Alice's childhood summers in Grandma Dowdel's sleepy illinois town were packed with enough drama to fill the double bill of any picture show. But now she is fifteen, and faces a whole long year with Grandma, a woman well known for shaking up her neighbors-and everyone else! All Mary Alice can know for certain is this: when trying to predict how life with Grandma might turn out . . . better not. This wry, delightful sequel to the Newbery Honor Book A Long Way from Chicago has already taken its place among the classics of children's literature. "Hilarious and poignant." —Publishers Weekly, starred review A Newbery Medal Winner A New York Times Bestseller An ALA Notable Book An ALA Best Book for Young Adults A Booklist Best Book of the Year A School Library Journal Best Book of the Year

Problem Solving in Chemical and Biochemical Engineering with POLYMATH®, Excel, and MATLAB, Second Edition, is a valuable resource and companion that integrates the use of numerical problem solving in the three most widely used software packages: POLYMATH, Microsoft Excel, and MATLAB. Recently developed POLYMATH capabilities allow the automatic creation of Excel spreadsheets and the generation of MATLAB code for problem solutions. Students and professional engineers will appreciate the ease with which problems can be entered into POLYMATH and then solved independently in all three software packages, while taking full advantage of the unique capabilities within each package. The book includes more than 170 problems requiring numerical solutions. This greatly expanded and revised second edition includes new chapters on getting started with and using Excel and MATLAB. It also places special emphasis on biochemical engineering with a major chapter on the subject and with the integration of biochemical problems throughout the book. General Topics and Subject Areas, Organized by Chapter Introduction to Problem Solving with Mathematical Software Packages Basic Principles and Calculations Regression and Correlation of Data Introduction to Problem Solving with Excel Introduction to Problem Solving with MATLAB Advanced Problem-Solving Techniques Thermodynamics Fluid Mechanics Heat Transfer Mass Transfer Chemical Reaction Engineering Phase Equilibrium and Distillation Process Dynamics and Control Biochemical Engineering Practical Aspects of Problem-Solving Capabilities Simultaneous Linear Equations Simultaneous Nonlinear Equations Linear, Multiple Linear, and Nonlinear Regressions with Statistical Analyses Partial Differential Equations (Using the Numerical Method of Lines) Curve Fitting by Polynomials with Statistical Analysis Simultaneous Ordinary Differential Equations (Including Problems Involving Stiff Systems, Differential-Algebraic Equations, and Parameter Estimation in Systems of Ordinary Differential Equations) The Book's Web Site (http://www.problemsolvingbook.com) Provides solved and partially solved problem files for all three software packages, plus additional materials Describes discounted purchase options for educational version of POLYMATH available to book purchasers Includes detailed, selected problem solutions in Maple®, Mathcad ,and Mathematica®

"A true natural genius of comic art." — Mort Walker, creator of Beetle Bailey Starting in 1948, Walt Kelly's newspaper-based comic strip Pogo lampooned sociopolitical issues from the Red Scare to the environmental movement. A gifted cartoonist who began his career at Walt Disney Studios, Kelly explored the virtues and follies of human nature with a lively cast of Okefenokee Swamp critters. Kind-hearted Pogo Possum headed the crew, which included intellectual Howland Owl; exuberant Albert Alligator; poetic mud turtle Churchy LaFemme; romantic hound dog Beauregard Bugleboy; and other impish personalities. Even readers too young to appreciate the strip's satirical elements were charmed by the eccentric creatures and their offbeat wordplay. This compilation features comics from the election year of 1952, during which Pogo's neighbors encouraged the reluctant possum to run for president. Their rallying cry, "I Go Pogo," parodied Dwight D. Eisenhower's "I Like Ike" slogan and provided real-life fans with a write-in candidate. Kelly's sly humor and flair for creative language—replete with malapropisms and nonsense verse — retain their imaginative verve for comics enthusiasts of the twenty-first century.

Sabrina the Teenage Witch, the most iconic magical character in comic books if not all of pop culture, is back with a bevy of spell-binding tales, featuring the classic ensemble of Salem the cat, Harvey, and Sabrina ' s two bewitching aunts Hilda and Zelda, as well as some new friends and an all-new love interest. With stories written by Bill Goliher and illustrated by award winning artist Holly G!, Sabrina the Teenage Witch is sure to cast her spell on you!
