At a time when Americans are debating the future of public education, Johann N. Neem tells the inspiring story of how and why Americans built a robust public school system in the decades between the Revolution and the Civil War. It's a story in which ordinary people in towns across the country worked together to form districts and build schoolhouses and reformers sought to expand tax support and give every child a liberal education. By the time of the Civil War, most northern states had made common schools free, and many southern states were heading in the same direction.

Americans made schooling a public good. Yet back then, like today, Americans disagreed over the kind of education needed, who should pay for it, and how schools should be governed. Neem explores the history and meaning of these disagreements. As Americans debated, teachers and students went about the daily work of teaching and learning. Neem takes us into the classrooms of yore so that we may experience public schools from the perspective of the people whose daily lives were most affected by them. Ultimately, Neem concludes, public schools encouraged a diverse people to see themselves as one nation. By studying the origins of America's public schools, Neem urges us to focus on the defining features of democratic education: promoting equality, nurturing human beings, preparing citizens, and

The Future of Nursing explores how nurses' roles,
responsibilities, and education should change significantly to
meet the increased demand for care that will be created by
health care reform and to advance improvements in
America's increasingly complex health system. At more than
3 million in number, nurses make up the single largest
segment of the health care work force. They also spend the
greatest amount of time in delivering patient care as a
profession. Nurses therefore have valuable insights and

unique abilities to contribute as partners with other health care professionals in improving the quality and safety of care as envisioned in the Affordable Care Act (ACA) enacted this year. Nurses should be fully engaged with other health professionals and assume leadership roles in redesigning care in the United States. To ensure its members are well-prepared, the profession should institute residency training for nurses, increase the percentage of nurses who attain a bachelor's degree to 80 percent by 2020, and double the number who pursue doctorates. Furthermore, regulatory and institutional obstacles -- including limits on nurses' scope of practice -- should be removed so that the health system can reap the full benefit of nurses' training, skills, and knowledge in patient care. In this book, the Institute of Medicine makes
