When Parents Love Too Much

BONUS: This edition contains an excerpt from Dr. Susan Forward's Men Who Hate Women and the Women Who Love Them. When you were a child... Did your parents tell you were bad or worthless? Did your parents use physical pain to discipline you? Did you have to take care of your parents because of their problems? Were you frightened of your parents? Did your parents do anything to you that had to be kept secret? Now that you are an adult... Do your parents still treat you as if you were a child? Do you have intense emotional or physical reactions after spending time with your parents? Do your parents control you with threats or guilt? Do they manipulate you with money? Do you feel that no matter what you do, it's never good enough for your parents? In this remarkable self-help guide, Dr. Susan Forward drawn on case histories and the real-life voices of adult children of toxic parents to help you free yourself from the frustrating patterns of your relationship with your parents -- and discover an exciting new world of self-confidence, inner strength, and emotional independence.

With the baby boom generation came the genre of parenting books that told parents how to teach their kids everything from toilet training to developing self-esteem. Generally the message has been: go easy on your child, but hard on yourself. It is starting to become apparent, especially in the best of families, that giving your kids lots of choices, validating their feelings at great peril to your own and providing "enough" individual attention for each child is creating a generation of kids over whom we have no control. Cassidy argues that this comes from over-thinking our role as parents. We've pondered every step so much that the juice, the joy, and worst of all, our confidence is gone. The reasons are clear: We have fewer children later in life so we've had more time to ponder. We've grown up just as research on infant and child development has come of age, so there's no shortage of material to think about. As a generation we've prided ourselves on self-improvement and we bring the same zeal to child improvement. We're less likely to live close to our families, and so are more likely to seek out expert solutions. To counter this thinking, Cassidy will suggest keeping the big picture in mind--what kind of people do you really want your kids to be? Honest, kind, cooperative, empathetic? It may mean losing sight of whether enough play dates are scheduled for the week and if you've positively reinforced the latest creative endeavor, but it will bring back your instincts about what is important to your family as a whole, and to your kids to become decent people.

If I could keep you little, I'd keep you close to me. But then I'd miss you growing into who you're meant to be! If I Could Keep You Little speaks straight to every parent's heart, exploring the powerful feeling of wanting your child to grow up while savoring every moment. Sure to become a new favorite, this book showcases author/illustrator Marianne Richmond's ability to beautifully illustrate the complex emotions we all have.

What makes this story extraordinary is the author tells it from the perspective of being in the experience as a child. In this book, it is easy to see how childhood experiences often hold adult answers. The reader of this story innocently ends up assessing his or her own upbringing. The story speaks to anyone who has ever had parents. In this story, we realize that sometimes we just have to return to childhood in order to say good-bye. While this book makes us laugh & cry, its true power comes through family redemption! This is a rare work because it is told entirely in the voice of a child who is untiringly trying to earn his parents love while also trying to grow up. It is a luminous demonstration of family emotions. When childhood is a struggle for survival there is scant energy left for growing up. This book movingly reveals the consequences of that type childhood and offers deliverance. The genesis of the story is the author could not remember his childhood; it was suggested he start writing from his earliest recollection as a way of nurturing childhood memories. When he did, the voice of the child he once was, was passionate & direct. The author grew up in a home of alcoholism, violence, and dysfunction; yet, had no idea this experience created its own evolving trauma.

From Dr. Patricia Love, a ground-breaking work that identifies, explores and treats the harmful effects that emotionally and psychologically invasive parents have on their children, and provides a program for overcoming the chronic problems that can result.

Love your kids for who they are. Mom and dad, your kids are created in God's image, not your own. Jill Savage and Kathy Koch will guide you in truly appreciating your kids. They will teach you how to study and become an expert on your children, because you cannot fully embrace them until you truly know them. In No More Perfect Kids, Jill Savage and Kathy Koch equip us with the tools and perspective to: Identify and remove the Perfection Infection from our parenting Release our children from unrealistic expectations Answer the questions our kids are silently asking in a way that gives them the courage and freedom to be themselves Meet the needs of our children, including those with special needs Written in a passionate, candid, and personal tone, the authors will instill within you hope and contentment. You'll be inspired to apply the practical, realistic, and relevant ideas and tactics Jill and Kathy share.
